## Woman's Diseases

Are as peculiar as unavoidable, and cannot be discussed or treated as we do those to which the entire human family is subject. Menstruation sustains such important relations to her health, that when suppressed, irregular or painful, she soon becomes languid, nervous and irritable, the blood ceases her normal course, and every grave complication arises unless regularity and vigor is restored to these organs.

## DAYS OF GRACE

For Spain in which to Settle the Cuban Question.

## A SUDDEN MOVE IN THE AFFAIRS

Of the Island—Minister de Lome Says Cuba will be Either Crushed or Evacuated in Sixty Days—If this is Not Done President Cleveland will Recognize the Insurgents as Belligerents.

WASHINGTON, D. C., Nov. 8.—Information of the most startling character regarding a correspondence between President Cleveland and the Spanish minister, Senor Dupuy de Lome concerning the future course of this country toward Cuba, was current here to-day.

It is said that a few days ago the president, in a semi-official manner, sent to ascertain from the Spanish minister whether he had any information that he might be willing to give regarding the future course of Spain toward the insurgents in Cuba. To this suggestion Senor Dupuy de Lome is said to have returned a letter in which he assured the president that within sixty days from the date thereof (November 1), Spain would have crushed the revolution or withdrawn her troops from the island.

To this astounding rejoinder President Cleveland is said to have replied on the following day that he would consider the information imparted by the Spanish minister as sufficient to justify this government in delaying any action until the expiration of the time named, and that in the same token, he would feel justified in recommending recognition of the Cuban republic should the Spanish government fail to restore peace within two months.

In the opinion of those who know the Spanish minister, the move on his part is regarded as a clever diplomat attempt to forestall any action by the president based on the report that Consul General Lee is believed to be about to make and to secure a postponement of action by the executive until the winter campaign shall have been inaugurated.

## FAMINE IN IRELAND.

Crops Rotting in the Field and Tenant Farmers Cannot Pay Rent.

LONDON, Nov. 8.—The Irish question is coming up in an acute form, through the old and too familiar occurrence of an Irish famine.

The bishop of Raphoe, in a recent appeal for subscriptions in aid of the Irish party fund, spoke of the bleak prospects before the agricultural population as operating against the fund. The bishop hardly seems to have realized how desperate the situation is.

The correspondent of the Manchester "Guardian," one of the most trustworthy and least sensational papers in England, declared that no such appalling prospect has presented itself during the present generation. Concurring reports show that the prolonged and continuous rains of the autumn have ruined the crops from north to south.

The rich lower lands have been flooded for weeks at a time, when the harvest ought to have been proceeding. Stacked corn and haystacks have been submerged, and potatoes are rotting in the fields.

In the poorer hill lands the small farmer and cottager population are again face to face with one of those failures of the potato crop which has too often brought the uttermost horrors of starvation and famine and disease among them.

The government is doing nothing. The Irish secretary's tour in the west and northwest occurred before the bad weather set in, and at a time when little could be predicted of the harvest. Since then he has obtained reports from official sources—from landlord sources—which can only be described as misleading.

The farmers of many of the large estates have applied their landlord's agents that no rent can be paid this year, because no rent has been earned. But the landlords have entered into a combination for wholesale pressure on the tenants.

Using their utmost privilege under the land act, they are applying for ejectment decrees by the thousand, and an eviction campaign such as has rarely been witnessed even in Ireland is now in progress in many districts.

As soon as the rigors of winter set in the demand for relief will be clamorous. The government will at a time when it intervenes before parliament opens or face an accusation of reckless indifference to suffering, such as ought to overwhelm an English ministry.

With this famine impending, combined with the revelations of the financial regulations commission, showing how Ireland is annually bled of millions of money to the advantage of Great Britain, it will be no wonder if Irish discontent assumes a more active form than mere discussion over legislation for home rule.

Not Guilty of That.

Mr. Cecil Rhodes is not usually a hilarious person, but he is said to have laughed immoderately on the occasion of the capture of Umsavvu, a very old woman and one of the numerous wives of Umzikatze, founder of the Matabele nation and father of Lobengula. Asked if she knew Mr. Rhodes, the ancient dame shook her head. Thereupon the question was repeated in another form and Umsavvu said: "There were some white men once in my kraal stealing fowls; he may be one of them."—St. James' Gazette.

## CAPT. GOODWIN'S VIEWS.

Some Suggestions, Opinions and Advice From a Local Authority.

"The Master and Pilot of Class No. 1" so reads the license of Captain J. F. Goodwin, No. 48 S. Penn street. For over thirty years he has piloted craft of all descriptions through the intricate channels of the Ohio, the Mississippi and the Missouri and there is probably not a better known man along the entire length of the Ohio river. To add anything to his statement could not strengthen its value and it is left to his friends and acquaintances to say which they will believe, the word of a man like Captain Goodwin or the unsupported testimony of someone entirely unknown. Read what the Captain says: "I have enjoyed good health all my life with the exception of a weakness of my kidneys which first bothered me about four or five years ago. In damp or changeable weather and when exhausted from long standing at the wheel, I would suffer from a weakness and dull aching across my loins. This was accompanied by a severe urinary weakness, causing me a great deal of inconvenience. I would sometime, if slightly overdone or rising quickly, become quite dizzy, but in a few moments it would pass off. I was troubled a great deal this last spring and having seen Doan's Kidney Pills so highly recommended I procured a box at the Logan Drug Company and used them according to directions. I felt their effect very quickly and in a short time I was entirely free of the trouble. I have made several trips since taking them and the conditions that previously affected me produced no bad effects. I can honestly recommend Doan's Kidney Pills for all cases of kidney and bladder weakness."

Doan's Kidney Pills are sold for 50 cents per box, six boxes for \$2.50. For sale by all dealers or sent by mail on receipt of price. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

## SULTAN SCARED.

French Government Uses Sharp Words and He Makes Promises.

PARIS, Nov. 8.—When the sultan received an account of the recent speech delivered by M. Hanotaux, minister of foreign affairs, in the chamber of deputies, November 2, upon the Armenian question, he sent his secretary to M. Jules Cambon, the French ambassador to Turkey, to inquire concerning the matter. In his speech before the chamber M. Hanotaux declared that the excesses of the Ottoman government furnished legitimate motives for complaint. He also stated that a concert had been established among the powers and that in October, 1895, an understanding had been reached with the Porte to the effect that the latter should grant reforms which unhappily had not been applied.

M. Hanotaux also announced that, owing to the anarchy which reigned in the administrative spheres of Turkey, troubles had ensued, and France was bound to use language the strength and significance of which Turkey must understand. The powers, M. Hanotaux said, were convinced of the necessity of their solid union, but there must be no isolated action and no interference with the integrity of the Ottoman empire.

In conclusion, the minister of foreign affairs announced that during the czar's visit an exchange of views had occurred, and that a united Europe would be able to show the sultan that he must give his subjects security and peace.

When the representative of the sultan conferred with M. Cambon at Pera he was informed by the French ambassador of Turkey that it was imperative that the sultan must adopt a certain number of measures calculated to reassure the public and give Europe satisfaction. The Turkish envoy to Paris, Munir Bey, has now informed M. Hanotaux that the sultan upon receipt of M. Cambon's message, immediately decided to adopt the following measures:

The liberation from the prisons of the Ottoman empire of all persons against whom no charges have been preferred. The issuance to the police of orders that all peaceable Armenians must not be persecuted. The immediate convocation of the Armenian national association for the purpose of electing a patriarch.

It is also announced that Mazhar Bey, who was accused of being responsible for the murder of Father Salvator, would be tried by court-martial. The wali of Diarbekir will be dismissed from office, and definite instructions will be sent to all valis that they must repress all further acts of violence.

Furthermore, it is stated that the ministry of instruction will estimate the cost of rebuilding the Catholic convents in Asia Minor partially destroyed during the recent disturbances. Aid will be given to the residents of those districts which are reported to have suffered severely during the recent trouble.

The sultan has also promised to immediately issue a decree enforcing the reforms granted in 1895, to six vilayets of Armenia. In addition, he has agreed to extend those reforms to other provinces.

M. Hanotaux thanked the Turkish envoy who explained the matter to him. It is now stated that the minister of foreign affairs has issued instructions to M. Cambon to carefully watch and see whether these promises made by the sultan are carried into execution.

## Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Logan Drug Co.'s Drug Store. Regular size 50c and \$1.00.

Oh, How They Hurt.

Neuralgic pains are often so acute, that the poor sufferer becomes, almost, frenzied with the intensity of the pain. Salvation Oil will instantly relieve and effectually cure neuralgia, so there is no reason why a moment's pain should be endured. Mr. Jacob Klein, 1036 Main St., Evansville, Ind., writes: "My wife suffered from neuralgia for seven years and since she used Salvation Oil, she has not had a spell. I think it is the best liniment I have ever tried, and I would not be without a bottle of it in the house. I had the rheumatism for five years and had tried a great many liniments, and must say that Salvation Oil did me more good than any other remedy." Salvation Oil is sold everywhere for 25 cents.
